

# Downloading and Installing iMindMap - Windows Users

## 1. Finding your Download of iMindMap

Firstly you need to locate the download links for iMindMap.

If you are trialling:

- You will be able to login to your ThinkBuzan account and locate the download links under Download iMindMap.

If you have purchased:

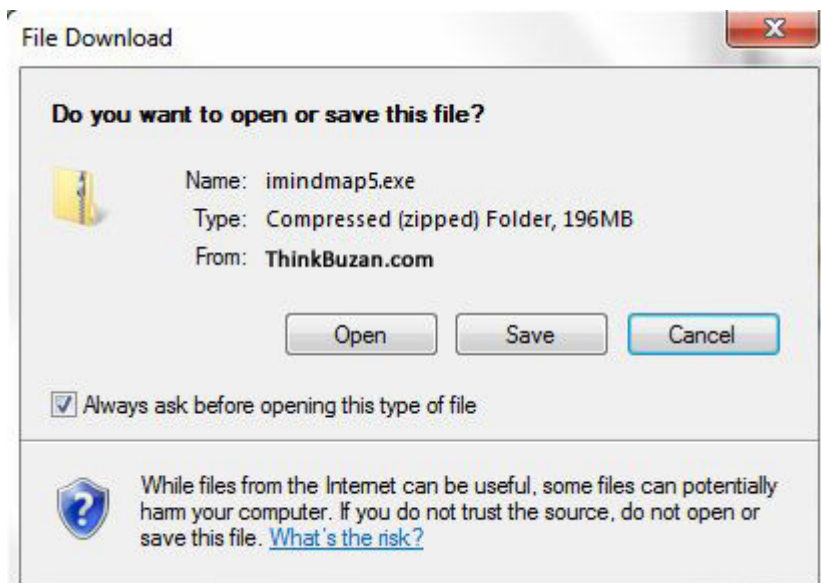

- The links would have been emailed to you upon purchase. Please check your inbox for your email - if you have not received this email please check your Spam Filter.
- If you purchased iMindMap the email will be from [payments@thinkbuzan.com](mailto:payments@thinkbuzan.com).

Please note: You would have signed up for a ThinkBuzan account upon registering for your free 7 day iMindMap trial. We would have emailed your username to you, so please locate this email if you cannot remember it. Alternatively, you can use the Forgotten Username and Password links and a new password and your username will be sent to you.

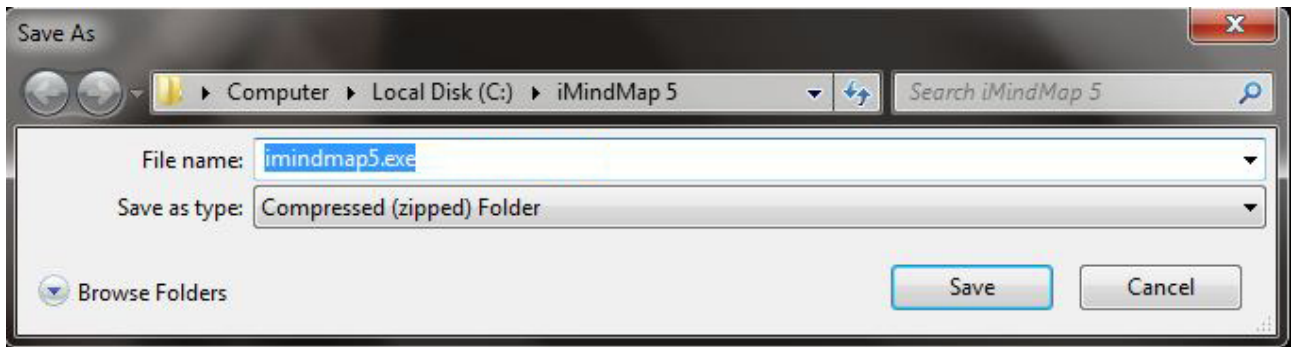

Please click on the Windows download link.

## 2. Saving the iMindMap Download

After clicking on the download link, the below window will appear. Click on Save.

Save this to a temporary place such as your desktop. You can delete this once you have installed iMindMap fully.

Please note: This does vary dependent upon your Operating System, the above are for Windows 7. If you have a different Operating System please follow the normal procedure for downloading.

### 3. Downloading iMindMap

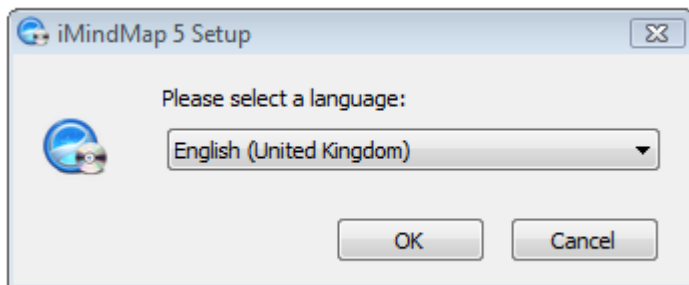

Now iMindMap will download to your desktop. This may take a few minutes.

### 4. Completion of Download

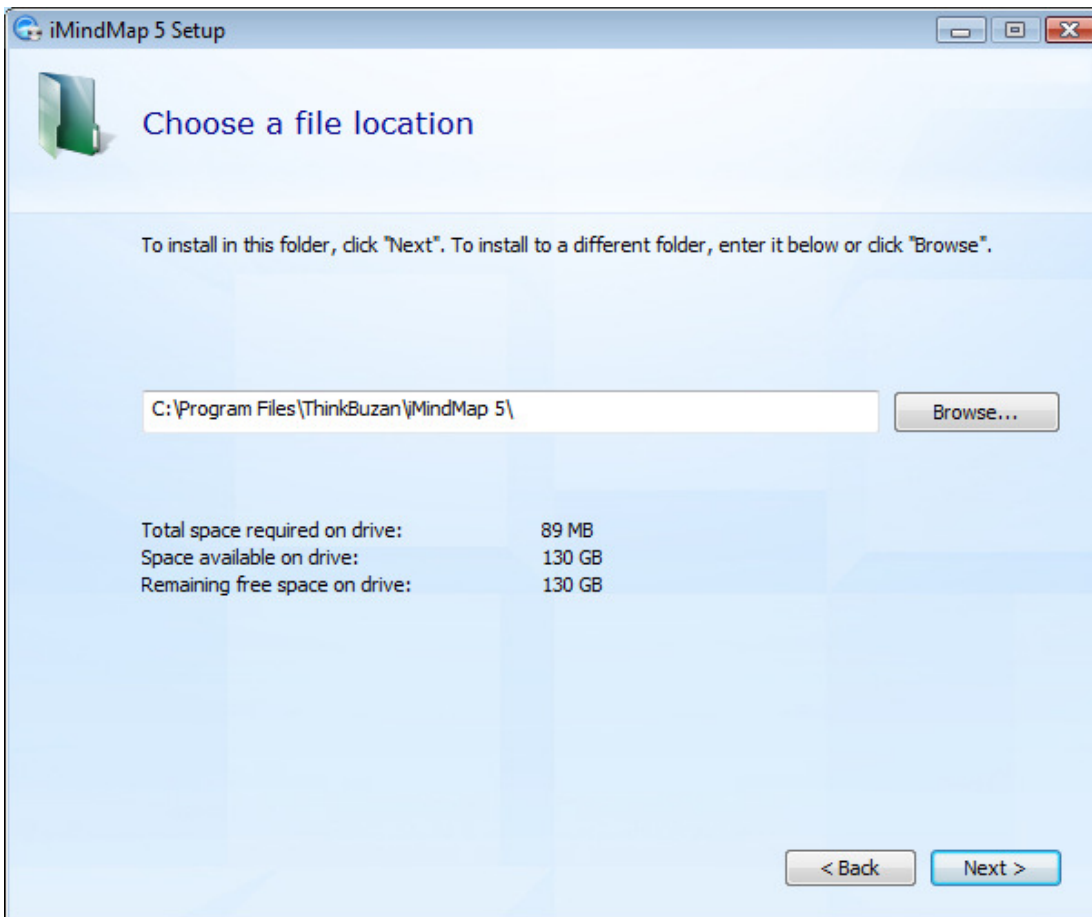

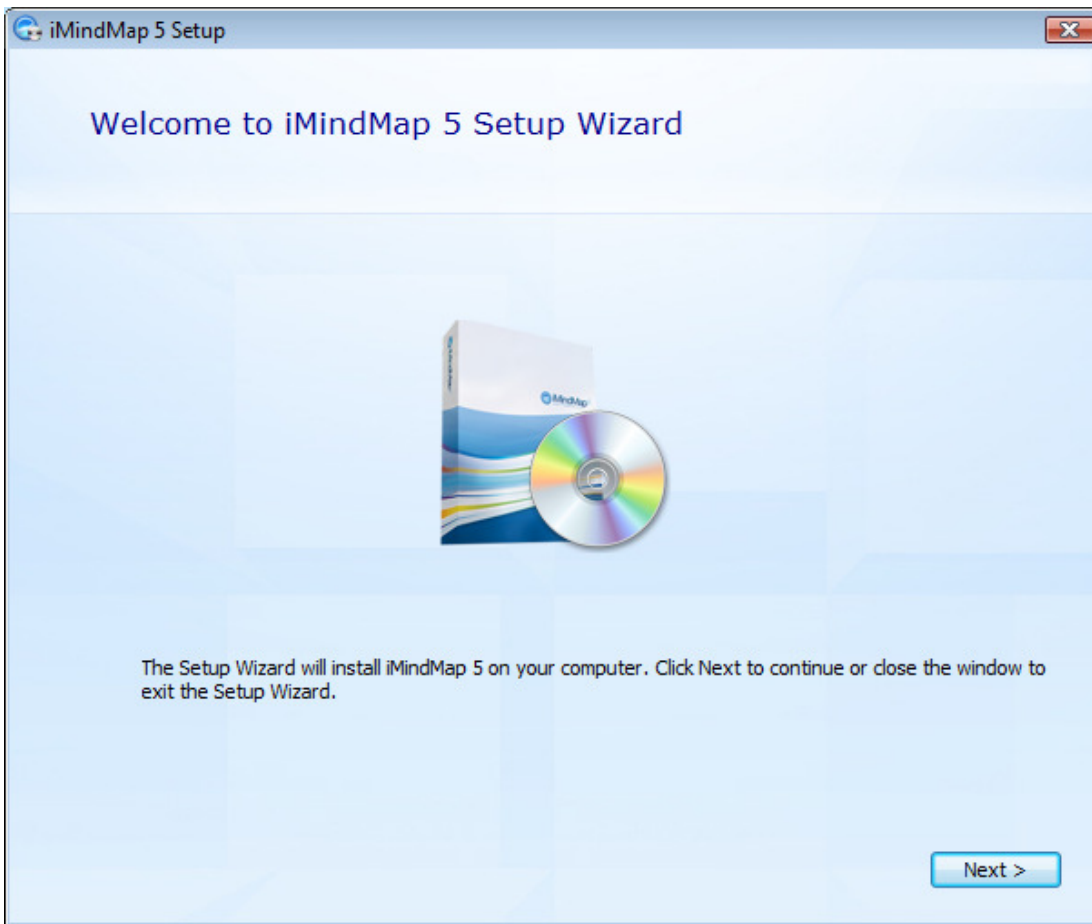

When the download is completed, either double click or choose Run, depending on your operating system.

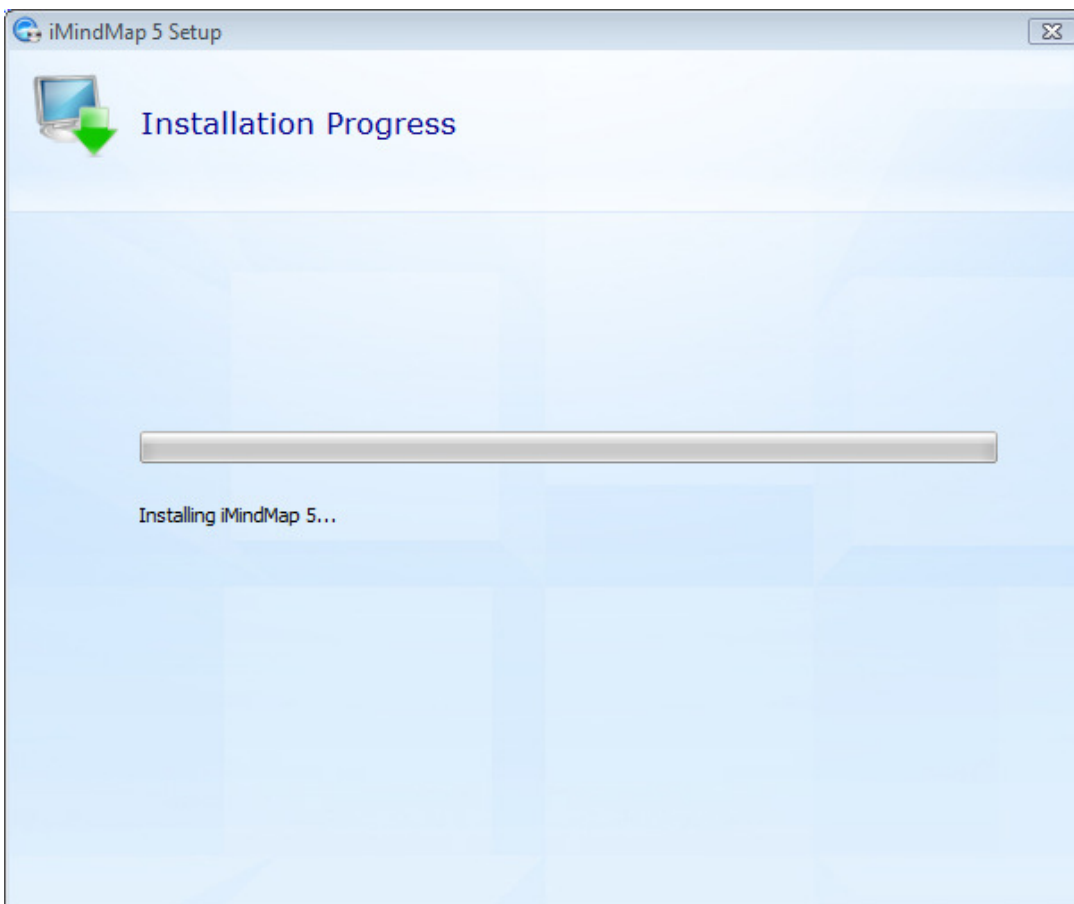

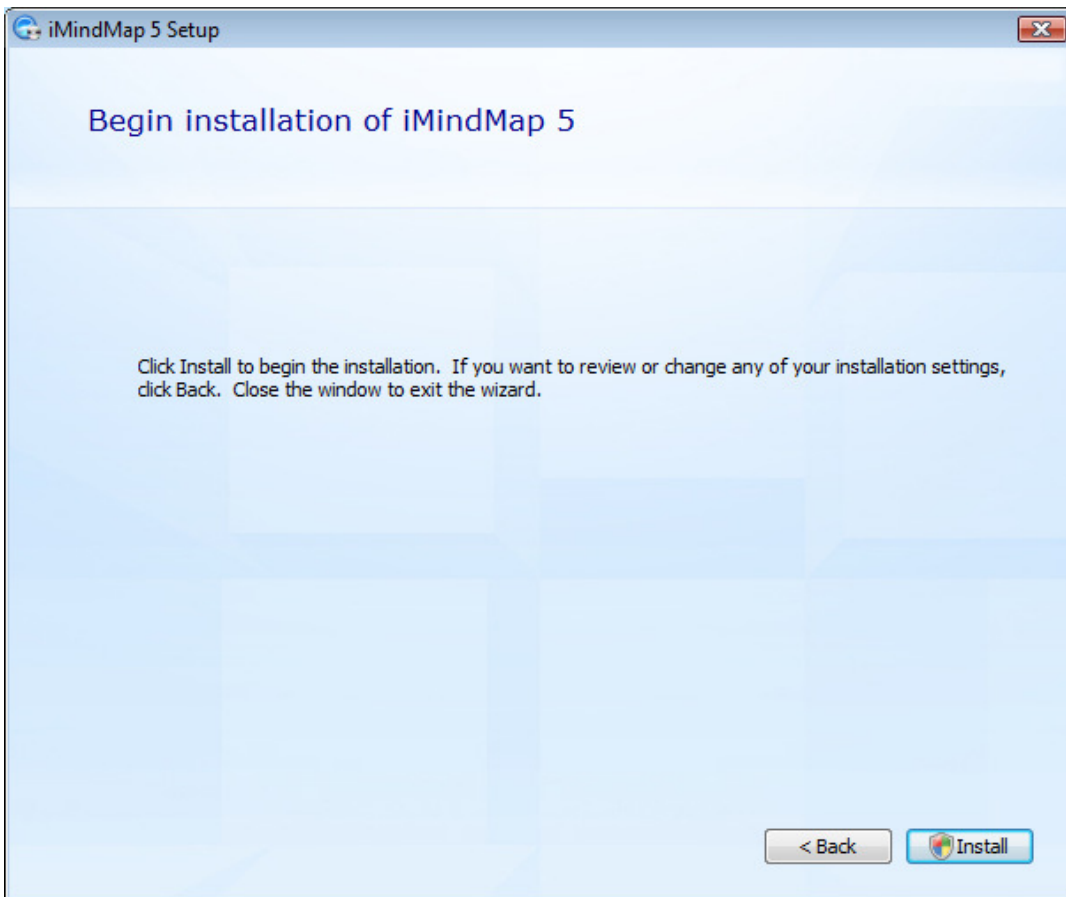

### 5. Setting Up iMindMap

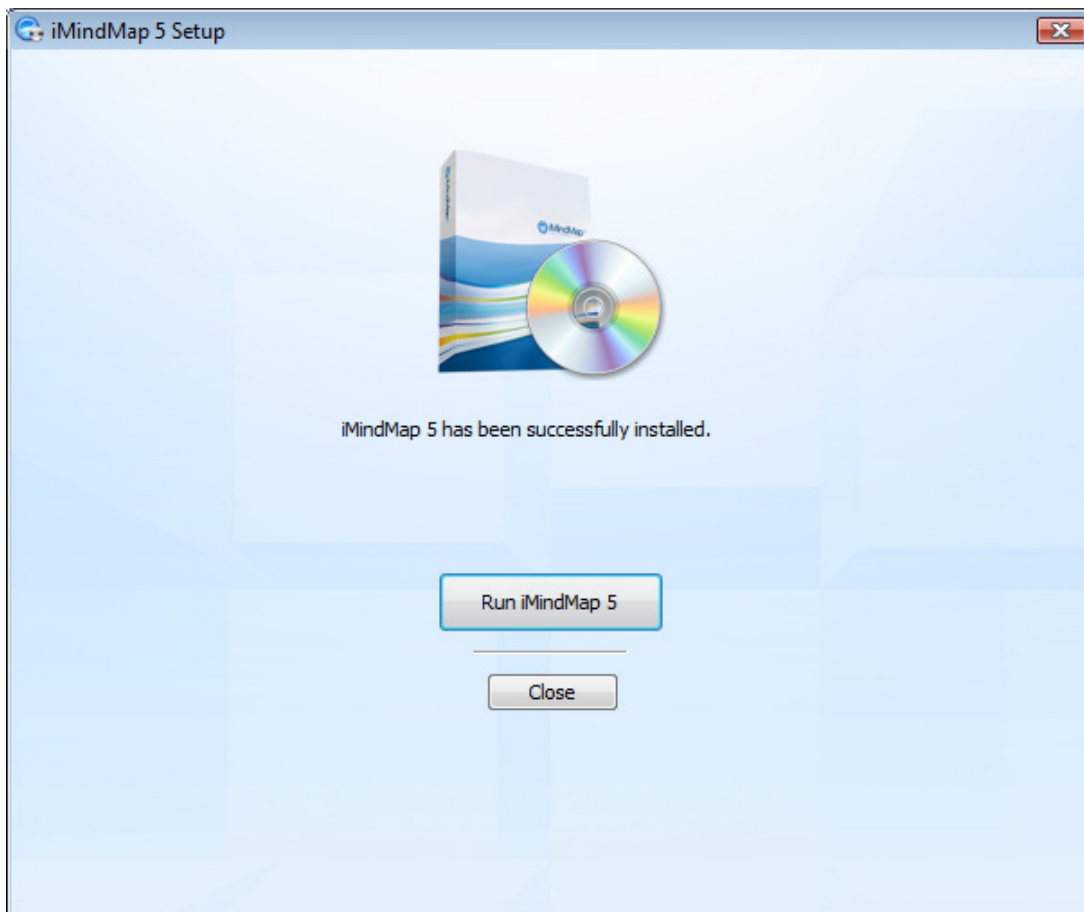

Firstly, select your Language

The Setup Wizard will now appear. Simply follow the on-screen instructions, clicking on Next when you are happy to move on to the next screen and finally select Install when the button appears.

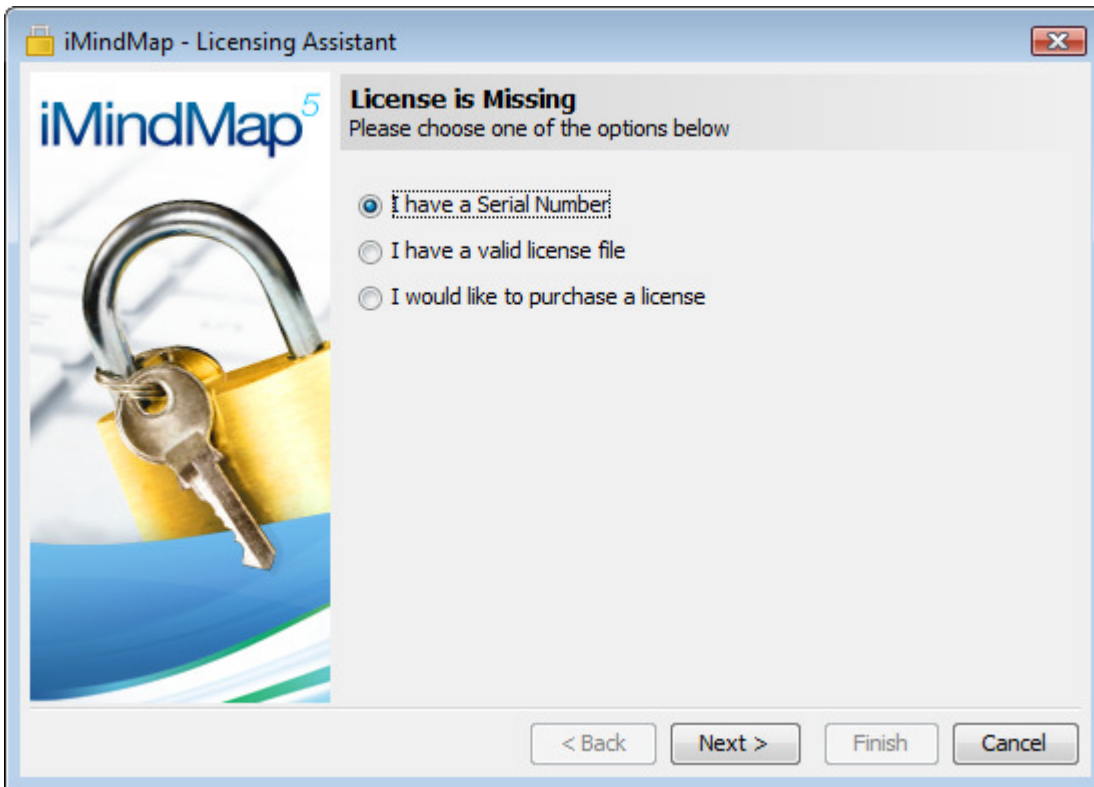

Finally, click run iMindMap 5.

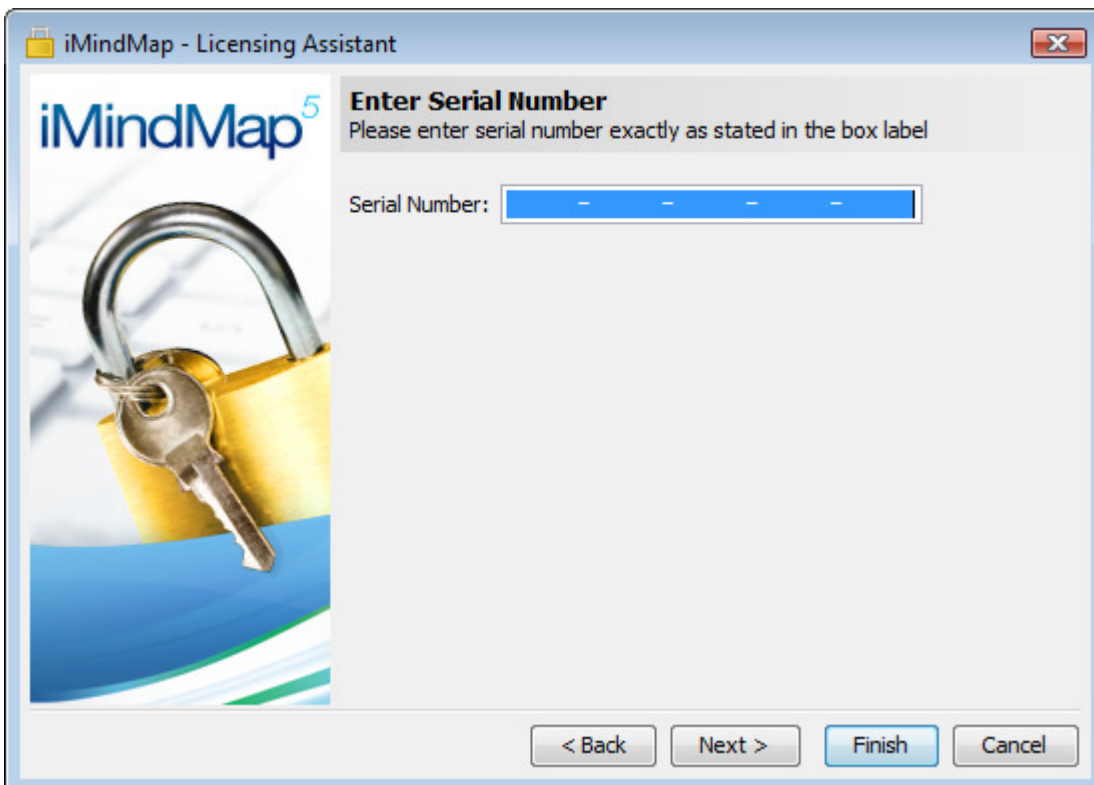

## 6. Registering iMindMap

- If you are installing the **FREE 7 day trial of iMindMap**, it will launch straight away once you have clicked on Run iMindMap 5.
- If you have **purchased iMindMap** you will now need to activate the software.

Locate your serial number which will be stated in your 'Registering iMindMap - serial number enclosed' email (sent from [payments@thinkbuzan.com](mailto:payments@thinkbuzan.com)) and then click on 'I have a Serial Number' option. Select Next to continue.

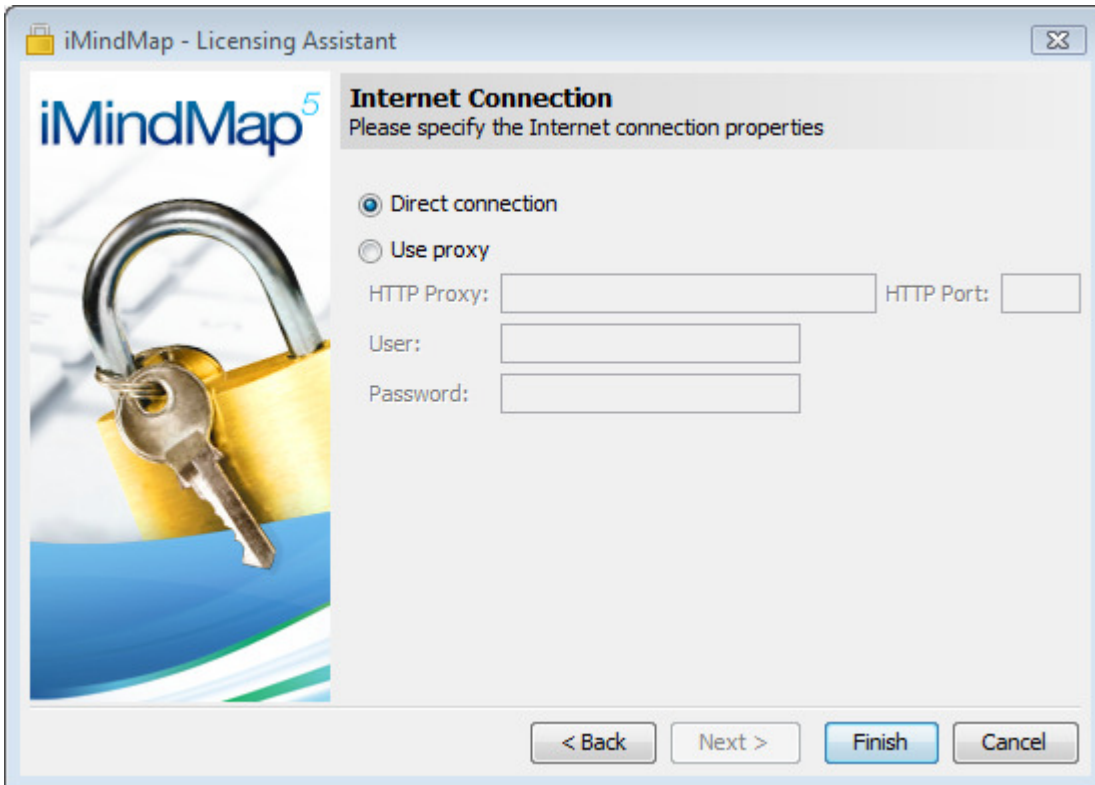

Then, copy and paste your serial number into the box, the best way to do this is using your shortcut keys, which are Ctrl + C and Ctrl + V. Then select Next.

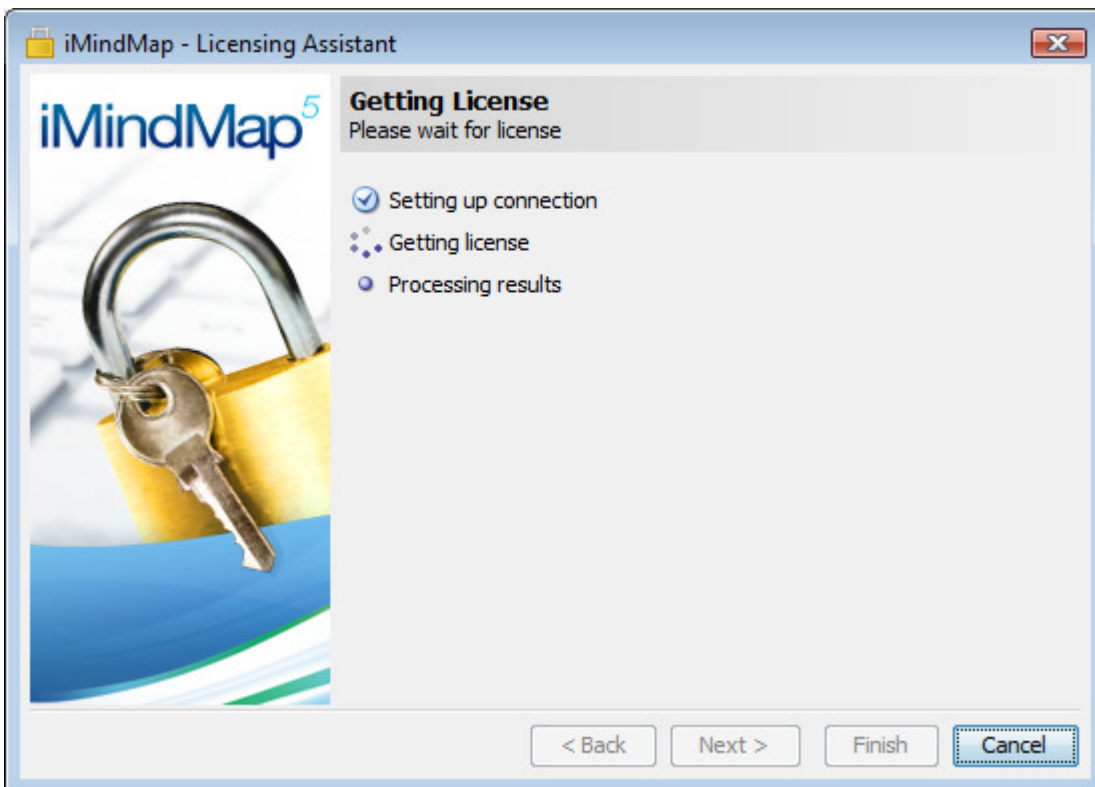

Select 'Direct Connection' and then 'Finish'.

If you have a proxy set up, please enter in your proxy details.

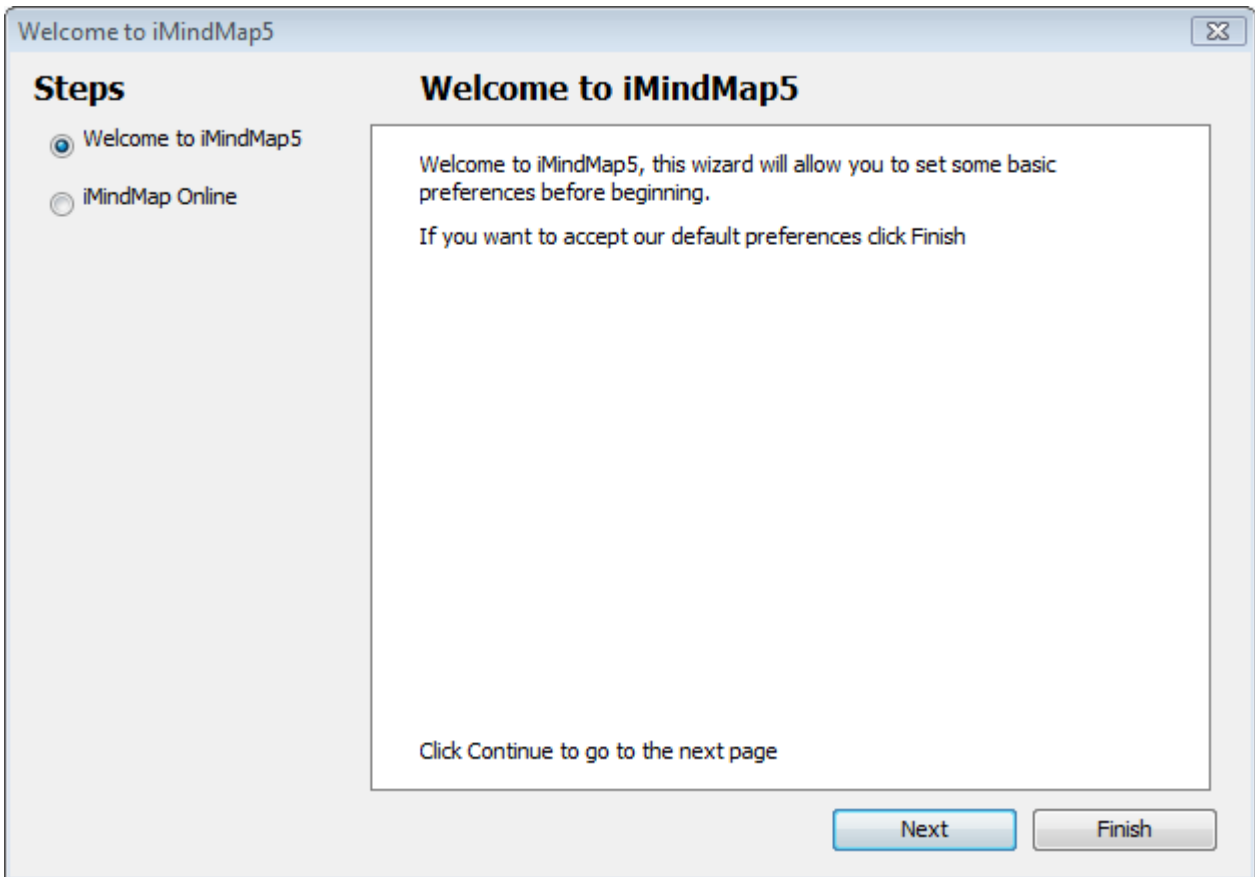

You will then see the below window and iMindMap will activate.

Once you have got to this point you must to accept the End User License Agreement.

You can then set up your preferences for iMindMap 5: select Next or Finish, depending upon the

preferences you wish to select.

## Having Problems Registering iMindMap?

If you are having problems registering the software this is most probably due to your computer not being able to connect with our server. This may be due to your proxy server settings or a fire wall.

- In order to solve this problem you can use our [Manual Activation System](#). This means that you do not have to connect to the internet in order to activate the software.
- Please login to your ThinkBuzan account and go to Desktop Serials and you will find the instructions to our Manual Activation System.
- If you then follow these instructions it should take you approximately 5 minutes to activate iMindMap.
